SMS

Caller ID and SMS Compatible

Please read these Operating Instructions before using the unit and save for future reference.

Charge the battery for about 7 hours before initial use.

Before Initial Use

◆◆ Features

SMS (Short Message Service) compatibility
Now the convenience of sending and receiving text messages is available from a home telephone.

32-Polyphonic Ring Tones
A variety of high-quality sounds can be reproduced for your ring tones. You can choose from 9 pre-set melodies and 6 ring tones.

Hands-Free Speakerphone
You can talk without holding handset.
Convenient for talking while doing something else.

Headset Socket
Plug in the optional headset and the hands-free facility provides total ease and freedom of use.

Illuminated Keypad
Lights up when there is an incoming call or you touch any key for easier operation even in the dark.

200-Station Phonebook
Stores 200 station names and numbers with the built-in telephone directory to be recalled easily.

Multiple Handsets
Up to 6 handsets can be registered with a single base unit for added convenience. (Optional handset /charger is available separately.)

LCD Backlight
Lights up when there is an incoming call or you touch any key for easier operation even in the dark.

Thank you for purchasing your new Panasonic digital cordless telephone.

- Order accessory and consumable items for your product with ease and confidence by phoning our Customer Care Centre Monday - Friday
  9:00am - 5:30pm.
  (Excluding public holidays)
  Or go on line through our Internet Accessory ordering application at
  Shop@Panasonic **http://www.panasonic.co.uk**
- Most major credit and debit cards accepted.
- All enquiries transactions and distribution facilities are handled directly by Panasonic UK Ltd.
- It couldn't be simpler!
- Also available through our Internet is direct shopping for a wide range of finished products, take a browse on our website for further details.

Dear purchaser,
You have acquired a KX-TCD505E, which
is a product made in accordance with the Digital Enhanced Cordless Telecommunications (DECT). DECT technology is characterized by high-security protection against interceptions as well as high-quality digital transmission. This telephone was designed for a wide range of applications. For example, this telephone can be used within a network of base units and handsets, constituting a telephone system which:

- operates up to 6 handsets at one base unit.
- allows an intercom between 2 handsets.
- allows the operation of a handset at up to 4 base units, expanding the communication radio area.

Caller ID and SMS Services, where available, are network provider service. After subscribing to Caller ID, this phone will display the caller's phone number.

Preparation

Before Initial Use

Accessories (specific to product type)

☐ AC Adaptor Order No. PQLV19EZ (PQLV19E) one	☐ Telephone Line Cord Order No. PQJA87S (for UK) one	☐ Rechargeable Batteries (AAA size) Order No. HHR-4EPT/BA2 (P03P) two
☐ Belt Clip Order No. PQKE10355Z1 (Metallic Grey) PQKE10355Z2 (Violet) (PQKE10355) one	☐ Battery Cover Order No. PQKK10134Y6 (Metallic Grey) PQKK10134Y7 (Violet) (PQKK10134) one	☐ Operating Instructions...one ☐ Quick Guide.................one

Only use the power supply included with the product.
Do not connect the AC Adaptor to any AC outlet other than the standard AC220-240 V.
The apparatus is approved for use with PQLV19E (Order No. PQLV19EZ) power supply.
This apparatus is unable to make calls under the following conditions:

- The portable handset batteries need recharging, or have failed.
- During a mains power failure.
- When the Key Lock is set to ON.
- When the unit is in Direct Call mode.

Do not open the base unit or handset (other than to change the batteries).
This apparatus should not be used near emergency/intensive care medical equipment and should not be used by people with pacemakers.
Care should be taken that objects do not fall onto, and liquids are not spilled into the unit. Do not subject this unit to excessive smoke, dust, mechanical vibration or shock.

Environment

Do not use this unit near water.
This unit should be kept away from heat sources such as radiators, cookers, etc. It should also not be placed in rooms where the temperature is less than 5 °C or greater than 40 °C.
The AC Adaptor is used as the main disconnect device. Ensure that the AC outlet is located/installed near the unit and is accessible.

WARNING:
TO PREVENT THE RISK OF ELECTRICAL SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR ANY OTHER TYPE OF MOISTURE.
Battery Caution

1. Use only the specified batteries.
2. **Only use rechargeable batteries.**
3. Do not mix old and new batteries.
4. Do not dispose of batteries in a fire, as they may explode.
   Check local waste management codes for special disposal instructions.
5. Do not open or mutilate the batteries. Released electrolyte from the batteries is corrosive and may cause burns or injury to the eyes or skin.
   The electrolyte may be toxic if swallowed.
6. Exercise care in handling the batteries in order not to short circuit the batteries with conductive materials such as rings, bracelets and keys.
   The batteries and/or conductor may overheat and cause burns.
7. Charge the batteries in accordance with the information provided in this operating guide.

Location

- For maximum distance and noise-free operation, place your base unit:
- Away from electrical appliances such as TVs, radios, personal computers or other phone.
- In a convenient, high, and central location.

How to Use the Handset Soft Keys

3 soft keys are used to select functions displayed directly above the keys.

Functions displayed above the keys will change depending on the state of use.

For example, on the standby mode display, "▨", "▦", "◑" are displayed above the soft keys.

Example: Standby Mode Display

```
Ψ                    ▥
JOHN SMITH
→) 5 Calls
✉ 8 SMS
25.2  21:05
  ▨    ▦    ◑
```
To operate "▨" (**Phonebook**), press **LEFT SOFT KEY**.

To operate "▦" (**Menu**), press **JOYSTICK** directly as the middle soft key.

To operate "◑" (**Redial**), press **RIGHT SOFT KEY**.

When "▓" is displayed above a soft key, the soft key will not work.

- To select only "▦" (**Menu**), you can also select it moving **JOYSTICK** up, down, left or right.

Setting up

◆◆ Connection

> Do not connect the telephone line cord to the phone socket **4** until the handset is fully charged.
Plug in the AC adaptor and the telephone line cord in order **1**, **2**, **3**.

Hooks

1

2   **4**

3

Fasten the AC adaptor cord to prevent it from being disconnected.

- The AC adaptor must remain connected at all times (It is normal for the adaptor to feel warm during use).
- Never install telephone wiring during a lightning storm.
- USE ONLY WITH Panasonic AC ADAPTOR PQLV19E (Order No. PQLV19EZ).

◆◆ Battery Installation

Please ensure the batteries are inserted as shown. $\ominus$ part should be inserted first. Close the cover as indicated by the arrow.
- When you replace the batteries, $\oplus$ part should be removed first.
◆◆ Battery Charge

At the time of shipment, the batteries are not charged. To charge, place the handset on the base unit. **Please charge the batteries for about 7 hours before initial use.**
During charging, the charge LED will light as shown below.

During charging   **Fully charged**

Red   Green

Display icon	Battery strength
▮▮▮	High
▮▮	Medium
▮	Low
▮	Needs to be charged

The handset which power is off will be turned on automatically when it is placed on the base unit.
The handset will not operate while it is on the base unit.
If you do not recharge the handset battery for more than 15 minutes, the display will flash ▮ when the handset is lifted off the base unit.

◆◆ Battery Information

After your Panasonic battery is fully charged:

Ni-MH Batteries (typical 700 mAh)

Operation	Operating Time
While in use (TALK)	10 hrs approx.
While not in use (Standby)	120 hrs approx.

Ni-Cd Batteries (typical 250 mAh)

Operation	Operating Time
While in use (TALK)	4 hrs approx.
While not in use (Standby)	40 hrs approx.

- Times indicated are for peak performance.
- The battery operating time may be shortened depending on usage conditions and ambient temperature.
- **Clean the charge contacts of the handset and the base unit with a soft, dry cloth once a month. Clean more often if the unit is subject to grease, dust or high humidity.** Otherwise the battery may not charge properly.
- The batteries cannot be overcharged unless they are repeatedly removed and replaced.
- For maximum battery life, it is recommended that the handset not be recharged until the battery icon flashes

◆◆ Replacing the Batteries

If the 🔋 icon flashes after a few telephone calls even when the handset batteries have been fully charged, both batteries must be replaced.

- **Charge new batteries for approximately 7 hours before initial use.**
  (The telephone line cord must not be connected to the telephone socket at this time.)
- **When replacing the batteries, be sure to set up the battery type even if you install the same type of batteries to initialise battery remaining memory of your handset. (See Setting the Battery Type on page 53.)**
- Do not use non-rechargeable batteries. If non-rechargeable batteries are fitted and start charging, it may cause the leakage of the battery electrolyte.
- Press the notch on the cover firmly and slide it as indicated by the arrow. Replace both batteries (Page 10) and close the cover then charge the handset for about 7 hours.

Please order Panasonic P03P (Ni-MH) or P03H (Ni-Cd) batteries.

Preparation

Setting up

◆◆ Power ON/OFF

◆ **Power ON**

Press and hold **POWER**.	When **POWER** is released, the display changes to the standby mode.

◆ **Power OFF**

Press and hold **POWER**.	The display goes blank.

◆◆ Selecting the Display Language

You can select one of 19 languages. The factory preset is English.

To exit the operation, press ⌀ at any time.

1 Press **JOYSTICK** (or move).	*2* Select " 🖉 Setting Handset". **OK**	*3* Select "Display Option". **OK**
4 Select "Select Language". **OK**	*5* Select the desired language. **OK**	

• If you set a language you cannot read, reset the handset to its initial settings.

Press ⌀ ➧ Press ▣ ➧ Move 🔅 ➧ Press **OK** ➧ Move 🔺 ➧ Press **OK** ➧ Move 🔺 ➧

Press **OK** ➧ Enter 4-digit Handset PIN (Factory Preset 0000) ➧ Move 🔅 ➧

Press **OK**

All handset settings will be reset to their initial settings (see page 55), however, the phonebook data will be saved.

12

◆◆ Setting the Date and Time

After a mains power failure, the clock needs to be adjusted. Ensure that the Ψ icon is not flashing.

To exit the operation, press $\textcircled{\text{off}}$ at any time.

Preparation

1 Press **JOYSTICK** (or move).	*2* Select " 🏷 Setting Handset". **OK**	*3* Select "Set Date/ Time". **OK**
4 Enter the date (see below).	*5* Enter the time (see below).	*6* Press **JOYSTICK**. **OK**

Example: To set 16 February, 2003, 7:15 pm.

Date			Time		
Day	Month	Year	Hour	Minute	12/24 hour clock
①（MNO6）	⓪（ABC2）	⓪（DEF3）	⓪（PQRS7）	①（JKL5）	**12/24** **12/24**

◆ To select 12/24 hour clock

Press **RIGHT SOFT KEY** repeatedly.
12/24

24 hour clock → 12 hour clock (AM) → 12 hour clock (PM)

Using the Telephone

◆◆ Making a Call

◆ **Pre-Dialling**

1 Enter Phone Number.

2 Press **TALK**.

◆ **Post-Dialling**

1 Press **TALK**.

2 Enter Phone Number.

- If you need to make a correction while entering the phone number when using **Pre-Dialling**, press ⓒ. The digit is cleared to the left, then you can enter numbers. All digits are cleared if you press and hold ⓒ.
- You can also press 🔊 to make a call.

◆◆ Answering a Call

◆ **Terminating a Call**

((🤳)) ➡ Press **TALK**.

(During a call) ➡ Press **TALK OFF**.

- You can also answer a call by pressing ⓪ to (wxyz9), (A—*), (#), 🔊 or (INT) (**Any Key Talk**).

◆◆ Auto Talk

If you set **Auto Talk** to ON, you can answer the phone by lifting the handset off the base unit. (See **Setting Auto Talk ON/OFF** on page 53.)

◆◆ Illuminated Keypad

The cordless handset dialling buttons will light when you press a button or lift the cordless handset off the charger when a call is received. The lights will go out a few seconds after pressing a button to start operations, lifting the cordless handset or answering a call or pressing button to complete operations such as hanging up a call, leaving the Caller ID List/Phonebook or Settings.

◆◆ LCD Backlight

The lighted display of the handset will stay on for a few seconds after pressing a button or lifting the handset off the base unit.

◆◆Receiver (or Headset Receiver)/Speaker Volume

The choices for the receiver (or headset receiver) volume are 3 levels, and 6 levels for the speakerphone volume.

(During a call) ➧	To increase volume, move **JOYSTICK** up. To decrease volume, move **JOYSTICK** down.

◆◆Have a Hands-Free Phone Conversation (using Digital Speakerphone)

Hands-free allows you to talk to your caller without holding the handset and allows other persons in the room to listen to the conversation.

◆**To Return to Receiver**

(During a call) ➧	Press **SPEAKERPHONE**.

Press **TALK**.

- For best performance, please note the following:
- Talk alternately with the caller in a quiet environment.
- If either party has difficulty hearing, move **JOYSTICK** up or down to change the volume accordingly. The choices for the speakerphone volume are 6 levels.

◆◆Muting Your Conversation

During a call, you can mute your phone so the other party cannot listen to you. When muting your conversation, you can hear the other party.

◆**To Mute**

(During a call) ➧	Press **LEFT SOFT KEY**, then Icon flashes.

◆**To Return to the conversation**

Press once more. Icon stops flashing.

Cordless Telephone

Using the Telephone

◆◆Key Lock

You can lock the handset dialling buttons. Only incoming calls are accepted while the key lock is ON. When the key lock is ON, the menu icon ⬚ changes to ⬚0.

When the key lock is ON, emergency calls (see page 58) cannot be made until key lock is cancelled.

◆Key Lock ON

|	
(Standby Mode Display) ➧	Press and hold **JOYSTICK** directly for more than 2 seconds.

◆Key Lock OFF

Press and hold **JOYSTICK** directly for more than 2 seconds once more.

◆◆Handset Locator/Paging

You can locate a misplaced handset by paging it.

◆Paging

<Base Unit>	**<All Handsets>**
Press **PAGE**. ➧	All registered handsets ring for 1 minute.

◆To Stop Paging

<Base Unit>		**<One of Handsets>**
Press **PAGE**.	**OR**	Press **TALK**.

• You can also stop paging by pressing ⓪ to ⑨, INT, #, ⟵∗, 📵 or 🔊.

◆◆ **Redialling**

The last 10 numbers dialled are automatically stored in the redial list.

◆ **Dialling with the Redial List**

1 Press **RIGHT SOFT KEY**.	*2* Search for the desired dialled item.	*3* Press **TALK**.

- If there is no item stored in the redial list when pressing ▢, the display shows "Memory Empty".
- If the items are scrolled at the end when you search for the desired dialled item, an end tone sounds.
- You can also press ⏻ to make a call.
- To save the numbers from the redial list into the phonebook, or to edit or delete from memory, see pages 21 and 22.

◆ **Dialling the Last Number Dialled**

1 Press **TALK**.	*2* Press **RIGHT SOFT KEY**.

Auto Redial

If you press ⏻ then ▢ to redial and the dialled number is engaged, the unit will automatically call back every 40 seconds, up to 12 times. When using Auto Redial, press ⏻ again after pressing ▢ if the muting has not be cancelled.

◆◆ **Recall Feature**

RECALL Ⓡ is used to access special telephone services. Contact your network provider for details. If your unit is connected to a PBX, pressing **RECALL** allows you to access some features of your host PBX such as transferring an extension call.

Cordless Telephone

Using the Telephone

◆◆ Dialling Pause (for PBX line/long distance service users)

A dialling pause is used when a pause in the dialling of a phone number is necessary using a PBX or accessing a long distance service.

For example, when 0 (line access number) is dialled followed by a pause to access an outside line through a PBX:

1 Press **0**.	*2* Press **RIGHT SOFT KEY**.	*3* Enter Phone Number.	*4* Press **TALK**.
⓪	▣ P		↘

- Entering a pause prevents misdialling when you redial or dial a stored number.
- Pressing **RIGHT SOFT KEY** more than once increases the length of the pause between numbers.
- To change the pause time, see page 57.

◆◆ Call Waiting

Call Waiting is a service of your network provider and will only operate if you have subscribed to this service. You can answer the second call, keeping the first call on hold.

(Call waiting tone sounds during a call)	➧	Press **RECALL**. Ⓡ	➧	The first call is put on hold and you can answer the second call.

◆ To Return to the First Caller

Press **RECALL** once more. Ⓡ

- If you subscribed to Caller ID and Call Waiting services, your handset displays a second caller's phone number while talking.
- If the phone number is stored in the phonebook with its name, the caller's name will also be displayed.
- Please consult your Network provider for details of this service.

◆◆ Caller ID Service

Caller ID is a service of your Network provider and will only operate if you have subscribed to this service.

After subscribing to Caller ID, this phone will display the caller information.

If your unit is connected to a PBX or a telephone line that does not support this service, you will not be able to use it.

◆ Standby Mode Display

```
H/set 1

→) 10 Calls
 17.8 14:59
```
When new calls have been received, the display shows the number of calls.

In the example on the left, 10 new calls have been received.

◆◆ Making a Call from the Caller ID List

The last 50 caller's phone numbers are stored in the order the calls were received. When the 51st call is received, the oldest caller information is cleared. If the caller's name has been stored with the number in the phonebook (see **Storing Caller Information** on page 24), the caller's name will also be displayed.

To exit the operation, press ⟨⟩ at any time.

1 Press **JOYSTICK** (or move).

2 Select "→) Caller ID".
OK

3 The newest caller information is displayed.

Time Received
Date Received — 17.8 14:59
Name — JOHN SMITH
Tel No. — 0123456789
4 Search for the desired item.

5 Press **TALK**.

- You can also press ⟨⟩ to make a call.
- "√" indicates you have already viewed this caller information, or answered the call.
- If the caller has requested not to display his/her information, the display shows "Private Caller".
- If the caller dialled from an area which does not provide Caller ID service, the display shows "Out of Area".
- If the items are scrolled at the end when you search for the desired item, an end tone sounds.

Cordless Telephone

List Menu

◆◆ Caller ID List Menu

You can save the numbers from the Caller ID list into the phonebook, and you can edit (for calling) or delete item(s) in the Caller ID List.
To exit the operation, press <img_icon> at any time.

1 Press **JOYSTICK** (or move).	*2* Select "→〗 Caller ID". **OK**	*3* Select the desired item. 📋
		Go to step **4**.

- If the items are scrolled at the end when you search for the desired item, an end tone sounds.
- If there is no item stored in the caller list when "Caller ID" is selected, the display shows "Memory Empty".

◆ Storing the Number in the Phonebook

Follow steps **1** to **3** shown above, then:

| *4* Select "Save Phonebook". **OK**	*5* Enter Name (p.25). (max. 16 characters)	*6* Press **JOYSTICK** twice. **OK** twice
7 Select desired category or "Off" (p.23). **OK**	*8* Select "Save", then "Saved" is displayed. **OK**	

◆ Editing the Received Number for Calling

Follow steps **1** to **3** shown above, then:

4 Select "Edit for Call". **OK**	*5* Edit Phone Number. (max. 24 digits)	*6* Press **TALK** or press **JOYSTICK** to call. 📞 **OR** **OK**

- You can also press ⌨ to make a call.
- If you press ⓪ to ⑨ or ✱ after step **3**, the first number of the phone number will be replaced and the display will go to step **5**. If you press #, the first number will be deleted and got to step **5**.

20

◆**Deleting One/All Caller ID Item(s)**

Follow steps **1** to **3** on the previous page, then:

4 Select "Delete" or "Delete All".

⇕ ➧ **OK**

5 Select "Yes", then "Deleted" is displayed.

⇕ ➧ **OK**

◆◆ Redial List Menu

You can save the numbers from the redial list into the phonebook, and you can edit (for calling) or delete item(s) in the redial list.
To exit the operation, press ⊘ at any time.

1 Press **RIGHT SOFT KEY**.

2 Select the desired item.

⇕ ➧ 🗐

Go to step **3**.

• If there is no item stored in the redial list when pressing 🔲, the display shows "Memory Empty".

◆**Storing the Number in the Phonebook**

Follow steps **1** and **2** shown above, then:

3 Select "Save Phonebook".

⇕ ➧ **OK**

4 Enter Name (p.25). (max. 16 characters)

5 Press **JOYSTICK** twice.

OK twice

6 Select desired category or "Off" (p.23).

⇕ ➧ **OK**

7 Select "Save", then "Saved" is displayed.

OK

Cordless Telephone

List Menu

◆ **Editing the Dialled Number for Calling**

Follow steps 1 and **2** on the previous page, then:

3 Select "Edit for Call".

OK

4 Edit Phone Number. (max. 24 digits)

5 Press **TALK** or press **JOYSTICK** to call.

OR **OK**

• You can also press to make a call.

◆ **Deleting One/All Redial Item(s)**

Follow steps **1** and **2** on the previous page, then:

3 Select "Delete" or "Delete All".

OK

4 Select "Yes", then "Deleted" is displayed.

OK

You can store up to 200 caller information in the phonebook. If you subscribed to Caller ID and you received a call from the same phone number you stored with name in the phonebook, the display will show the caller's name.

◆◆Private Category Feature

You can categorise caller information in the phonebook. There are 9 categories available. For example, category 1 can be used to save all friends numbers. For each category, you can rewrite the category names (max. 10 digits: see **Changing the Category Name** on page 49), you can select one of 3 Ringer LED colours (see **Setting the Private Colour** on page 49) and one of 15 ringer types (see **Ringer Options** on page 47).

This feature is only available after subscription to Caller ID Service. Please contact your network provider for further information.

Example

Private Category No.	Ringer LED Colour*			Private Ringer Type	Category Name
	Green	**Orange**	**Red**		
1		√		3	Friends
3			√	2	Customers

* The factory preset LED colour is green.

• The unit will indicate an incoming call using the factory preset LED colour (green) and the ringer pattern assigned to external calls (p. 47) momentarily until Caller ID information is received from the network provider.

Cordless Telephone

Using the Phonebook

◆◆ Storing Caller Information

To exit the operation, press ⌀ at any time.

---

1 Press **LEFT SOFT KEY**.

2 Press **JOYSTICK** to enter, then the display shows the number of empty phonebook entries.

3 Enter Name. (max. 16 characters: see next page)

4 Press **JOYSTICK**.
OK

5 Enter Phone Number. (max. 24 digits)

6 Press **JOYSTICK**.
OK

7 Select desired category or "Off".
OK

**8** Select "Save", then "Saved" is displayed.
OK

- If "Memory Full" is displayed when you press 📖, the phonebook is full. To store, delete other stored items in the phonebook.
- To continue storing other caller information, repeat from step **3**.

24

Using the Phonebook

◆◆ Entering Names/Characters

| Keys	Operations
(JOYSTICK)	Move the **JOYSTICK** up, down, left or right to move the cursor.
⓪ to (WXYZ9)	Press to enter letters/numbers. (Items are added to the left of the cursor. If the cursor is at the beginning of a line, the item is added at the beginning.)
Ⓒ	Press to delete characters. (Character on the cursor is deleted. To delete all characters, press and hold.)
(A→a✳)	Press to change between upper and lower case.
⓪	Press to insert a blank space (except when in Numeric input mode).
①	Press to insert a symbol (✳, #, /, etc.) (except when in Numeric input mode).

◆ Selecting the Input Mode
You can select one of 7 input modes by pressing **RIGHT SOFT KEY** while entering a name. The function icon above the key displays the current input mode. The factory preset is "**LetterWise®**". **LetterWise®** is a simplified text entry system. This system suggests to the user the most likely letter to follow the text entered previously. To enter texts in this mode, see page 34.
For the full character map, see **Phonebook Character Table** (see page 75).

> To switch the input mode while editing the name in the phonebook, press **RIGHT SOFT KEY.**
>
> **LetterWise®   Alphabet   Numeric   Greek   Extended 1 Extended 2 Russian**
>
> ㅤ🔅 ➡ ABC ➡ 0-9 ➡ ABΓ ➡ AÄÄ ➡ SŚŠ ➡ A Б B
- If **LetterWise®** is selected, select a language you require (see page 53).

Example (Alphabet Mode)
Enter the name using the letters on the keypad. For example, to enter "Anne" in Alphabet Mode:

(ABC2) ➡ (◎➡) ➡ (A→a✳)(MNO6)(MNO6)(◎➡) ➡ (MNO6)(MNO6) ➡ (DEF3)(DEF3)

Using the Phonebook

⬍ ➜ **OK**

5 Select "Save", then "Saved" is displayed.

OK

- If there is no item stored in the phonebook when searching for the desired item, the display shows "Memory Empty".
- If an item is already stored to a hot key, "√" will be displayed on the left of the key number. If a hot key number with "√" is selected, press "**OK**" to select "Overwrite".

◆ Dialling with a Hot Key

1 Press and hold the dialling button registered as a hot key until a phone number is displayed.

2 Press **TALK** or **SPEAKERPHONE**.

⟨📞⟩ **OR** ⟨📢⟩

◆ Deleting the Hot Key Registration

1 Press and hold the dialling button registered as a hot key until a phone number is displayed.

2 Press **JOYSTICK**.

🔲

3 Select "Delete".

OK

4 Select "Yes", then "Deleted" is displayed.

⬍ ➜ **OK**

- Phonebook registration will not be erased when hot key registration is deleted.

Cordless Telephone

SMS Feature (Text Message)

You can send and receive text messages between other fixed and mobile phones that also support a compatible SMS feature and network.

The SMS feature is only available after subscribing to Caller ID.

Before sending your first text message, or to find out more information on SMS conditions and registration, please read your SMS Conditions (Text Messaging) for Bizzyline (Direct) Ltd.
If you have any questions relating to the SMS Terms and Conditions, please call 09063020069. Calls are charged at 50p per minute. The helpdesk is open from 9.00am-5.30pm (Mon-Fri).
The SMS Network Provider described in these Operating Instructions is not available within the Republic of Ireland.
For further information, please contact the Customer Care Helpline No.: R.O.I. 01289 8333

Please note the following instructions when sending text messages between fixed lines and all mobile networks both national and international.

To Send a Text Message from Fixed Line to Fixed Line
There are no special requirements when sending a text message between fixed lines. Please follow the instructions under **Writing and Sending New Messages**.

To Send a Text Message from Fixed Line to Mobile
There are no special requirements when sending a text message between fixed line and mobile. Please follow the instructions under **Writing and Sending New Messages**. To enable the person receiving your message to reply, the server will insert your telephone number, within hash symbols, at the very end of your message. E.g. #01234 567899#. Please note: If you have used up the full 160 characters for your text message, your telephone number will overwrite the last letters of your message.

To Send a Text Message from Mobile to Fixed Line
There are special requirements when sending a text message from a mobile to a fixed line. If the mobile sender is unaware of the fixed line SMS providers requirements for sending a text message to a fixed line, please inform them of the following procedures.

Example: A Mobile is Replying to a Fixed Line Text Message
- **Select reply to message.**
- **Input your text message.**
- **Within the text message, enter the fixed line phone number.**
  The number can be added anywhere within the message but it must be entered with a hash at the beginning and end of the number.
  E.g. #01234 567899#
- **Select send.**

Example: Mobile is Writing/Sending a New Text Message to a Fixed Line
- **Input your text message.**
- **Within the text message, enter the fixed line phone number.**
  The number can be added anywhere within the message but it must be entered with a hash at the beginning and end of the number.
  E.g. #01234 567899#
- **Send the message (including number) to Big Mobile on: 07786 201010.**
SMS Feature (Text Message)

◆◆ Writing and Sending a New Messages

To exit the operation, press ⌀ at any time.

1 Press **JOYSTICK** (or move).	**2** Select "📧 SMS". OK	**3** Select "Create". OK
4 Enter Message. (p.33)	**5** Press **JOYSTICK**, then "Destination" is displayed. OK	

Go to step **6**.

◆ Entering a Number Manually

Follow steps **1** to **5** shown above, then:

6 Enter Phone Number. (max. 20 digits)	Press **JOYSTICK**. OK

Go to step **7** on the next page.

◆ Entering a Number from the Phonebook

Follow steps **1** to **5** shown above, then:

| **6** Press **LEFT SOFT KEY**.	Select the desired item (p.26). OK twice

Go to step **7** on the next page.

Cordless Telephone

SMS Feature (Text Message)

◆**Entering a Number from the Caller ID List**

Follow steps **1** to **5** on the previous page, then:

6 Select the desired item.
➧ **OK** twice

Go to step **7**.

◆**Entering a Number from the Redial List**

Follow steps **1** to **5** on the previous page, then:

6 Press **RIGHT SOFT KEY**.	Select the desired item.
➧	➧ **OK** twice

Go to step **7**.

Follow steps **1** to **6** on the previous page and above, then:

| **7** "Save?" is displayed, then select "Yes" or "No". (If "Yes" is selected, "Saved Message" is displayed.)	**8** Select "Send".
➧ **OK**	**OK**

- "Sending Message" is displayed after step **8**. The display returns to the standby mode, then "Transferring Message" is displayed.
- If the base unit does not have sufficient memory to send a message, the display will show "SMS lists are memory full. Delete messages.". The unit will then return to the function menu.
- Once you have created a SMS message, the unit will display "▲Use Last Text?" each time you select "Create". If you want to use the text of the last message sent once again, move the **JOYSTICK** up to recall the last message.
- If you try to send a message using a phone number (Destination) over 20 digits long from one of the Phonebook, Caller ID or Redial lists, "Invalid Number" is displayed and the display returns to "<Enter Phone No>".
- The maximum message length is 160 characters. Please consult your SMS service provider for further details.
- 69 messages can be memorized when you enter 80 characters/1 message.
- If your phone is connected to PBX (Private Branch eXchange: private branch exchange), see page 41 to enter the destination number.
◆◆ Text Entry

Keys	Operations
(JOYSTICK)	Move **JOYSTICK** up, down, left or right to move the cursor.
⓪ to (WXYZ9)	Press to enter letters/numbers. (Items are added to the left of the cursor. If the cursor is at the beginning of a line, the item is added at the beginning.)
Ⓒ	Press to delete characters. (Character on the cursor is deleted. To delete all characters, press and hold.)
(A→a✻)	Press to switch between upper and lower case.
⓪	Press to insert a blank space (except when in Numeric input mode).
①	Press to insert symbol (✶ , #, /, etc.) (except when in Numeric input mode).

◆ Selecting the Input Mode

There are 5 text input modes: **LetterWise**® (default mode), Alphabet (ABC), Numeric (0-9), Greek (ABΓ) and Extended (AÄÅ). The function icon above the key displays the current input mode. For the full character map, see **SMS Character Table** (p.76).

To change the input mode while inputting a message, press **RIGHT SOFT KEY**.

LetterWise®		**Alphabet**		**Numeric**		**Greek**		**Extended**
🔅	▶	ABC	▶	0-9	▶	ABΓ	▶	AÄÅ
⬭		⬭		⬭		⬭		⬭

- If **LetterWise**® (see next page) is selected, select a language you require (see page 53).

Cordless Telephone

SMS Feature (Text Message)

◆◆ Entering Text in LetterWise® Mode

LetterWise® is the default input mode. **LetterWise®** is a simplified text entry system. This system suggests to the user the most likely letter to follow the text entered previously.

Inserting Operations
Enter letters by pressing (ABC2) - (WXYZ9).
If the letter displayed is not correct, change the letter by pressing (#) (possibly several times).
Continue writing the word always checking that the letters displayed are correct and change them if necessary.
To insert symbols, use (1). If the symbol you want does not appear, press (#) repeatedly until the required symbol appears.

Example (When the language choice is English.)
To enter "hello".

1 Press (←✱) to change to the small letter.	`<Enter Message>`
2 Press (GHI4). "i" is the most frequent first letter of a word.	`i`
3 Press (#) to display the next candidate letter. "h" is the second most frequent letter.	`h`
4 Press (DEF3). "e" is most frequent letter.	`he`
5 Press (JKL5). "l" is most frequent letter.	`hel`
6 Press (JKL5). "l" is most frequent letter.	`hell`
7 Press (MNO6). "o" is most frequent letter.	`hello`

OK OR OR

◆ Calling the Message Sender

Follow steps **1** to **5** (or **4**) on page 37, then:

6 Press **TALK** or **SPEAKERPHONE**.
OR

Cordless Telephone
SMS Feature (Text Message)

◆◆ Changing the SMS Message Centre Numbers

To send and receive SMS text messages, you need your SMS Message Centre telephone numbers. Two numbers have been preset in your phone.
The phone number for SMS Message Centre 1 is used to SEND text messages while the number for Message Centre 2 is used to RECEIVE text messages.
You can change the preset numbers if required.
To exit the operation, press 📞 at any time.

1 Press **JOYSTICK** (or move).	*2* Select "✉ SMS". **OK**	*3* Select "Parameters". **OK**
4 Enter 4-digit Base Unit PIN. (Factory Preset 0000)	*5* Select Message Centre 1 or 2. **OK**	*6* Erase the current number by pressing ⓒ, then enter the new Message Centre number.
7 Press **JOYSTICK**. **OK**	*8* Select "Save", then "Saved" is displayed. **OK**	

For your reference, these are the numbers that have been preset in your phone.
Message Centre 1: 0911 023 5029
Message Centre 2: 0161274599

• If your phone is connected to a PBX, you need to add the PBX line access number (and a dialling pause) only to the Message Centre 1 phone number.

◆◆ Setting the PBX Line Access Number

This feature is only for the phones connected to a PBX. This allows you to delete automatically the PBX line access number (max. 4 digits) when you enter the destination phone number of an SMS outgoing message from Phonebook, Redial or Caller ID lists.
To exit the operation, press ⊘ at any time.

1 Press **JOYSTICK** (or move).	**2** Select "⊠ SMS". **OK**	**3** Select "Parameters". **OK**
4 Enter 4-digit Base Unit PIN. (Factory Preset 0000)	**5** Select "PBX Prefix". **OK**	**6** Select "On". **OK**
7 Enter Line Access Number. (max. 4 digits)	**8** Press **JOYSTICK**. **OK**	**9** Select "Save", then "Saved" is displayed. **OK**

◆◆ Turning the SMS Feature On/Off

To exit the operation, press ⊘ at any time.

1 Press **JOYSTICK** (or move).	**2** Select "⊠ SMS". **OK**	**3** Select "Parameters". **OK**
4 Enter 4-digit Base Unit PIN. (Factory Preset 0000)	**5** Select "SMS On/Off". **OK**	**6** Select "On" or "Off". **OK**

When the SMS feature is turned off;
- If you send a message, a tone sounds and the message will return to the SMS incoming list with "FD" attached.
- If you receive from SMS centre call, the message will not be received but SMS centre phone number will remain in the Caller ID list.

- If you turn the SMS feature on, the unit will begin ringing (one ring) after other connected telephones.
- The factory preset is "On".

Cordless Telephone

Base Unit Settings

◆◆ Setting the Base Unit Ringer Volume

To exit the operation, press ⚪ at any time.

1 Press **JOYSTICK** (or move).	**2** Select "▣ Setting Base".	**3** Enter 4-digit Base Unit PIN. (Factory Preset 0000)
4 Select "Ringer Option".	**5** Select "Ringer Volume".	
6 To increase volume, move **JOYSTICK** up. To decrease volume or set to OFF, move **JOYSTICK** down. (3 levels)	**7** Press **JOYSTICK**.	

* The factory preset is medium.

◆◆ Call Options

To exit the operation, press 🔘 at any time.

1 Press **JOYSTICK** (or move).	*2* Select "📭 Setting Base". **OK**	*3* Enter 4-digit Base Unit PIN. (Factory Preset 0000)
4 Select "Call Option". **OK**		
		Go to step *5*.

◆ Selecting the Flash/Earth Mode

An earth relay can be installed as an option depending on your PBX requirements. Please consult our Panasonic Customer Care Helpline for installation. On installation, you can then select the flash or earth mode to suit your PBX or network provider.

Follow steps **1** to **4** shown above, then:

5 Select "Recall". **OK**	*6* Select "Flash" or "Earth". **OK**

When "Flash" was selected;

7 Select desired flash type. (see below)
OK

- The factory preset is "Flash".
- "Type 1": 700 ms, "Type 2": 80 ms, "Type 3": 400 ms. The factory preset is "Type 2".

◆ Selecting the Pause Time

You can select the pause time to 3 or 5 seconds, depending on your PBX requirements.

Follow steps **1** to **4** shown above, then:

5 Select "Pause Time". **OK**	*6* Select "Short" (3 sec.) or "Long" (5 sec.). **OK**

- The factory preset is "Short".

Cordless Telephone

Base Unit Settings

◆**Setting the Emergency Calls**

Even if handset is in Call Bar Mode, you can make an emergency call.

Follow steps **1** to **4** on the previous page, then:

5 Select "Emergency Call".

6 Select "Emergency Call1" to "Emergency Call5".

7 Enter Emergency Call Number.

8 Press **JOYSTICK**.

• The factory presets are **112** and **999**.

◆**Call Restriction**

You can restrict selected handset(s) from dialling selected phone numbers. You can assign up to 6 call restriction numbers (up to 8 digits). If you dial a restricted number, the call does not connect and the restricted number flashes.

Follow steps **1** to **4** on the previous page, then:

5 Select "Call Restricted".

6 Search and press **RIGHT SOFT KEY** to attach (or cancel) "∨" to the desired Handset(s) to restrict.

7 Press **JOYSTICK**.

8 Select the restricted Number item (1-6).

9 Enter the restricted phone number (up to 8 digits).

10 Press **JOYSTICK**.

NOTE: When you put a first digit on step 9, it must overwrite the current displayed numbers. We recommend you to write down the restricted phone number you entered.

58

Base Unit Settings

◆◆Other Options

To exit the operation, press 📞 at any time.

1 Press **JOYSTICK** (or move).	**2** Select "🔲 Setting Base". **OK**	**3** Enter 4-digit Base Unit PIN. (Factory Preset 0000)
4 Select "Other Option". **OK**		
		Go to step **5**.

◆Changing the Base Unit PIN (Personal Identification Number)

The factory preset is 0000.

> Once you have programmed the base unit PIN, you cannot confirm it. We recommend you write down the base unit PIN. If you forget it, please consult our Panasonic Customer Care Helpline. U.K. 08700 100 076 R.O.I. 01289 8333

Follow steps **1** to **4** shown above, then:

5 Select "Change Base PIN". **OK**	**6** Enter new 4-digit Base Unit PIN.	**7** Enter new PIN again to verify.

◆Reset the Base Unit Settings

> You can reset all of the base unit settings to their initial settings.

Follow steps **1** to **4** shown above, then:

5 Select "Reset Base". **OK**	**6** Select "Yes". **OK**

◆◆ Operating Additional Handsets

Additional **KX-TCA151E** handsets are available for purchase separately. Up to 6 handsets can be registered to a single base unit. Using additional handsets allows you to have an intercom call while simultaneously conducting a call to an outside line.

◆◆ Operating Additional Base Units

You can register and operate your handset with up to 4 base units. Each base unit forms 1 radio cell. If the individual bases are linked to the same telephone line then you can extend the operating range of the system by positioning the bases so that the two radio cells overlap. If the handset is set to auto base selection, then in standby mode the handset will automatically swap to the second base if the range on the first base is exceeded. It is not possible to transfer calls between bases (only between handsets linked to the same base unit).

Radio Cell

Example:
Additional handsets
(KX-TCA151E) registered
with 2 base units.
NOTE: Calls are disconnected when the handset moves from one radio cell to another.

KX-TCA151E Handset: You can see the illustrations for answering system feature on additional **KX-TCA151E** handset body, but **KX-TCD505E** does not have an answering system feature. Therefore, the answering system does not work even if **KX-TCA151E** handset has been registered to **KX-TCD505E**.

Cordless Telephone

Multi-Unit User Operations

◆◆ Handset Registration to a Base Unit

The handset supplied with the base unit is already registered. If an optional handset is purchased, it must be registered as follows.

Charge the optional handset batteries for 7 hours before initial use.

Handset registration must be completed within 1 minute after pressing the ⬤.
If over 1 minute, press ⬤ then start over again.

To exit the operation, press ⬤ at any time.

|		
1 Press **JOYSTICK** (or move).	*2* Select " 🗒 Setting Handset". **OK**	*3* Select "Registration". **OK**
4 Select "Register H/set". **OK**	*5* **Press and hold ⬤ on the Base Unit (for about 3 seconds) until the tone sounds.** • If all registered handset(s) start ringing (paging), press ⬤ to stop paging then start over again.	
6 Select the desired base unit. **OK**	*7* Enter 4-digit Base Unit PIN. (Factory Preset 0000)	*8* Press **JOYSTICK**. **OK**

When a handset is registered successfully, a confirmation tone sounds and the " Ⴤ " icon is displayed.

- If you enter the incorrect Base Unit PIN, the error tone sounds and repeat from step **1**.
- To register an handset to more than one base unit, repeat from step **1** with the other base unit(s).
- The handset main menu may changes corresponding to the base unit registered to.

Multi-Unit User Operations

◆**Cancelling a Handset**

Each handset can cancel itself or another handset. This feature is usually used to cancel a link between Handset and Base Unit.

To exit the operation, press 🔘 at any time.

---

1 Press **JOYSTICK** (or move).

2 Select " ▱ Setting Base".
OK

3 Enter 4-digit Base Unit PIN.
(Factory Preset 0000)

4 Select "Cancel Handset".
OK

5 Search and press **RIGHT SOFT KEY** to attach "✓" to the handset(s) to cancel.

6 Press **JOYSTICK**.
OK

◆**Cancelling a Base Unit**

If another handset is out of range and/or power is OFF when **Cancelling a Handset**, the previous base unit number will still remain in the base unit registered in the cancelled handset. Therefore, you need to cancel the base unit registered in the cancelled handset. To exit the operation, press 🔘 at any time.

Follow steps **1** to **3** on the previous page, then:

4 Select "Cancel Base".
OK

5 Enter 4-digit Handset PIN.
(Factory Preset 0000)

6 Search and press **RIGHT SOFT KEY** to attach "✓" to the base unit to cancel.

7 Press **JOYSTICK**.
OK

8 Select "Yes", then "Deleted" is displayed.
OK

Cordless Telephone

Multi-Unit User Operations

◆◆ Base Unit Selection

When "Auto" (Automatic Base Unit Selection) is selected, the handset automatically searches for other registered base units if you move outside of the radio range of the current base unit.

When a specified base unit is selected, the handset will access that base unit only. Calls (both incoming and outgoing) can be conducted only via the selected base unit, even if the radio cells overlap with neighbouring base units.

To exit the operation, press ⌀ at any time.

1 Press **JOYSTICK** (or move).	**2** Select " 🖉 Setting Handset". **OK**
3 Select "Select Base". **OK**	**4** Select "Auto" or desired base unit. **OK**

◆◆ Intercom Between Handsets

You can use your handsets as a 2-way intercom.

Intercom calls can be conducted within the radio cell of the current base unit, but not with units in neighbouring radio cells.

To exit the operation, press ⌀ at any time.

◆**For example, when Handset 1 calls Handset 2:**

	<Handset 1>	**<Handset 2>**
1	Press **INTERCOM** (INT) , then press desired handset number (ABC2).	((• 📱 •))
2		Press **TALK** 📞.

- You can also answer a call by pressing (INT), (0) to (WXYZ9), (←∗), (#) or (📢) instead of pressing 📞 **(Any Key Talk)**.

◆**Terminating a call**

<Handset 1 or 2>	**3** Press **TALK OFF** ⌀.

◆◆ Transferring a Call to Another Handset

The intercom can be used during a call to transfer an external call between handsets that are registered to the same base unit.

To exit the operation, press 🔘 at any time.

◆ For example, when Handset 1 transfers a call to Handset 2:

<Handset 1>	<Handset 2>
(During a call)	
1 Press **INTERCOM** (INT), then press desired handset number (ABC2).	((📱))
2	Press **TALK** 〰.
(Conversation between handset 1 and 2)	
3 Press **TALK OFF** 🔘.	
	(Conversation between outside line and Handset 2)

- You can also answer a call by pressing (INT), (0) to (WXYZ9), (←•✱), (#) or (📞) instead of pressing 〰 **(Any Key Talk)**.
- If you press 🔘 after pressing the desired handset number, a call can be transferred to another handset without speaking to another handset.
  If the transferred call is not answered within 30 seconds, Handset 1 will ring again.
- When Handset 2 answers a call transferred, press (DEF3) to establish a **conference call** or press 🔘 to complete a call transfer.

Cordless Telephone
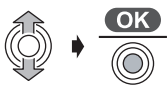

Multi-Unit User Operations

◆◆ Phonebook Copy

You can copy phonebook information between handsets registered to the same base unit. The phonebook copy must be performed while in intercom mode (see **Intercom Between Handsets** on page 64).

To exit the operation, press <img> at any time.

◆ Copying an Item

	<Handset 1: Receiver>	**<Handset 2: Sender>**
	(During an intercom call)	(During an intercom call)
1	Press **JOYSTICK**.	
2	Select "Recv Phonebook". "Start Copying" is displayed. **OK**	
3		Press **JOYSTICK**.
4		Select "Send Phonebook". **OK**
5		Select the desired item to copy. **OK**
6		Select "Copy One Item" then "Start Copying" is displayed. **OK**

◆**Copying All Items**

To exit the operation, press 🔘 at any time.

Follow steps **1** to **4** on the previous page, then:	
	<Handset 1: Receiver>	**<Handset 2: Sender>**
5		Press **JOYSTICK**. **OK** ⊚
6		Select "Copy All Items". ↕ ◆ **OK** ⊚

- When copying is completed, a beep sounds and "Copy Complete" is displayed. After a few seconds, the display will return to the intercom call. "Copy Incomplete" will be displayed if the receiver handset memory is full. If "Copy Failure" is displayed on the sender handset, the receiver and or sender did not prepare for copying within 60 seconds.
- If you move **JOYSTICK** up or down before pressing **JOYSTICK** on step **5**, all items will not be copied. The items, from the item indicated now to the last item, are copied.

Cordless Telephone

Walkie-Talkie

The Walkie-Talkie feature allows handsets to communicate with each other outside the range of the base unit. When the handsets are in Walkie-Talkie mode, external calls cannot be received. Only **KX-TCA151E** with Walkie-Talkie feature can communicate with one another.

Talk time in this mode is approximately 6 hours. Standby time in this mode is approximately max. 15 hours. (It changes by the use conditions.) When using the handset in Walkie-Talkie mode, we recommend keeping the handset turned off, turning it on only when talking in Walkie-Talkie mode. Turning the handset off immediately after use will improve battery operating time.

Range:
The maximum range between two handsets while in Walkie-Talkie mode is up to 300 metres outdoors.

◆◆ Setting the Walkie-Talkie Mode

You can set the Walkie-Talkie mode. There are two types: Common Base Station mode and Group mode. The factory preset is Group mode.

- In Common Base Station mode, communication is possible between handsets registered to a common base unit. If the handsets are registered to more than one base unit, the same base unit must be selected.

  Please note, the feature will not operate if AUTO is set in the base unit selection.

  If Common mode is selected and the handset is not registered to a base unit, an error tone sounds.
- In Group mode, communication is possible between handsets that are both set to this mode and whose Group ID's are common.

  This allows handsets to communicate in Walkie-Talkie mode regardless of which base unit they are registered to.

To exit the operation, press ⌀ at any time.

1 Press **JOYSTICK** (or move).

2 Select "▯▱ Walkie-Talkie".
OK

3 Select "Setting".
OK

4 Select "Common" or "Group".
OK

When "Group" was selected;

5 Enter 3-digit Group Code. (Factory Preset 000)

6 Press **JOYSTICK**.
OK

7 Enter Handset Number. (1-9: Factory Preset is 1)

8 Press **JOYSTICK** twice.
OK twice

- If you select Group, enter Group Code (this can be 3 numbers of your choice - the factory preset is 000). Make note of your code.
- The factory preset of Handset Number is 1.

IMPORTANT: Each handset should have its own unique number.

Cordless Telephone

Walkie-Talkie

◆◆ To Turn the Walkie-Talkie Mode On/Off

To use the Walkie-Talkie feature, all handsets in conversation must be in Walkie-Talkie mode.
To exit the operation, press ⚏ at any time.

◆ To Turn the Walkie-Talkie Mode On

1 Press **JOYSTICK** (or move).	*2* Select "📟 Walkie-Talkie".	*3* Select "On".
	OK	**OK**

• When the Walkie-Talkie mode is ON, the handset number is displayed after "Walkie-Talkie" appears on the display.

◆ To Turn the Walkie-Talkie Mode Off

1 Press **JOYSTICK**.	*2* Select "Off".
	OK

• This feature is also turned off if you turn power off then on.

◆◆ Talking in Walkie-Talkie Mode

Before proceeding with this function, please ensure Walkie-Talkie mode is turned on, and the appropriate Walkie-Talkie mode has been selected.
For example, Handset 1 is calling Handset 2.

To exit the operation, press ⚏ at any time.

	<Handset 1>	**<Handset 2>**
1	Press **INTERCOM** (INT), 📞 or 🔊, then press desired handset number (ABC 2).	((📱))
2		Press **TALK** 📞.

• You can also answer a call by pressing (INT), (0) to (WXYZ 9), (✱), (#) or 🔊 instead of pressing 📞 **(Any Key Talk)**.

70

Using the Belt Clip

To remove the belt clip.

You can hang the handset on your belt or pocket using the belt clip.

Optional Headset

Plugging an optional headset into the handset allows hands-free phone conversations. Please use only the Panasonic KX-TCA89EX headset. To order, call the accessories telephone number on page 3. While using the headset, speakerphone is not available. To switch to speakerphone, disconnect the headset.
Headset Socket

Connecting the optional headset to the handset
Open the headset socket cover, and connect the optional headset to the headset socket as shown.

Wall Mounting

Hooks

← 8 cm →

Screws

Fasten the AC adaptor cord to prevent it from being disconnected.
This unit can be mounted on a wall.
- Insert screws into the wall. The centre of the screw holes should be 8 cm horizontally apart.
- Make sure the screws are securely fastened to the wall.
- Connect the AC adaptor and the telephone line cord.
- Arrange the wires as shown, then mount the unit.

Before Requesting Help

If you experience any problems with the normal use of your apparatus, you should unplug it from the telephone outlet and connect a known working telephone in its place. If the known working telephone still has problems, then please contact the customer service department of your Network provider.
If it operates correctly, then the problem is likely to be a fault in your apparatus.
In this case, contact your supplier for advice. Your Network provider may charge you if they attend a service call that is not due to an apparatus supplied by them.

Technical Information

Specifications

Standard:	DECT=(Digital Enhanced Cordless Telecommunications)
	GAP=(Generic Access Profile)
Number of channels:	120 Duplex Channels
Frequency range:	1.88 GHz to 1.9 GHz
Duplex procedure:	TDMA (Time Division Multiple Access)
Channel spacing:	1728 kHz
Bit rate:	1152 kbit/s
Modulation:	GFSK
RF Transmission Power:	approx. 250 mW
Voice coding:	ADPCM 32 kbit/s
Power source:	AC Adaptor 220 - 240 V, 50 Hz
Power consumption, base unit:	5 VA
Operating conditions:	5 - 40 °C, 20 - 80 % relative air humidity (dry)
Dimensions, Base Unit:	About (58 mm x 128 mm x 105 mm) x 200 g
Dimensions, Handset:	About (143 mm x 48 mm x 32 mm) x 125 g

- Specifications are subject to change.
- The illustrations used in this manual may differ slightly from the original device.

Connections: The telephone will not work during a power failure. We therefore recommend you use a standard telephone and T Adaptor to connect this Digital Cordless Phone to the line. Your Panasonic Sales Shop can offer you more information about connection possibilities.

CONDITIONS OF GUARANTEE

This guarantee is in addition to and does not in any way affect any statutory or other rights of consumer purchasers. If within the applicable guarantee period, the appliance proves to be defective by reason of faulty design, workmanship or materials, we undertake subject to the following conditions to have the defective appliance (or any part or parts there of) repaired or replaced free of charge.

1. The appliance shall have been purchased and used solely within either the UK or ROI and in accordance with standard operating instructions and the technical and/or Safety Standards required in the UK.
2. The appliance should be returned together with this guarantee and proof of date of purchase promptly on being found defective at the purchaser's risk and expense to the authorised dealer from whom the appliance was purchased or to the nearest authorised dealer. All enquires must be through such dealers.
3. This guarantee shall not apply to damage caused through fire, accident, lightning, misuse, wear and tear, neglect, incorrect adjustment or repair, to damage caused through installation, adaption, modification or use in an improper manner or inconsistent with the technical and/or safety standards required in the country where this appliance is used, or to damage occurred during transit to or from the purchaser.
4. If at any time during the guarantee period any part or parts of the appliance are replaced with a part or parts not supplied or approved by us or of an objective quality safe and suitable for the appliance, or the appliance has been dismantled or repaired by any person not authorised by us, we shall have the right to terminate this guarantee in whole or in part immediately without further notice.
5. The purchaser's sole and exclusive remedy under this guarantee against us is for the repair or replacement of the appliance or any defective part or parts and no other remedy, including, but not limited to, incidental or consequential damage or loss of whatsoever nature shall be available to the purchaser.
6. This guarantee shall not apply to batteries and any other items of limited natural life.
7. Our decision on all matters relating to complaints shall be final. Any appliance or defective part which has been replaced shall become our property.
8. The guarantee period applicable to this product shall be 12 months.

Please keep these Operating Instructions with your receipt.
